## STARK Wafer PN 16-40 carbon steel ball valve

Macro Ball valves

Category STARK & SPARTAN

Subcategory STARK Wafer PN 16-40

benefits

**1. Additional Oring on the stem**

To grant additional tightness towards outside

**2. Antistatic device (electrical continuity between ball, stem and body)**

Static electricity is avoided which can cause sparks and fire in an inflammable/ explosive environment  
Safety of the contact is granted throughout the entire life of the valve

**3. Stretch Graphite seal**

Tightness towards outside is granted, independently by the thermal excursions to which the valve is subjected

**CASTED line**

Lighter Weight

**"Fire safe" Certificate**

Guarantees the tightness of the valve also in case of fire

**ATEX Certificate**

Installation is possible in a potential explosive environment

**PED Certificate**

Compliance with European Safety Standards for Pressure Equipment

## features

### STANDARD FEATURES

- Floating ball, full bore.
- Soft-seat seal: PTFE+15% glass filled.
- Standard for connecting flanges: EN 1092-1.
- Operating temperature: -20°C / +150°C.
- Pressure class: PN16-40.
- Intercepted fluid: air, water, gas, petroleum and petrochemical products.
- Antistatic device EN12266-2.
- Stem seal: PTFE V-pack.
- Additional seal on stem with FKM O-ring.
- Anti Blow-out stem
- Superficial treatment: bluing

### CERTIFICATIONS

- In compliance with European Directive 2014/68/UE PED;
- In compliance with ATEX 2014/34/EU Directive
- FIRE SAFE: API 607 - EN ISO 10497
